GOLD CUP All-America Winner!

(Left) This new All-America Winner for 1958 is a large, deep yellow Floribunda, distinguished for vigor, size, form and productivity. The pointed buds are deep yellow and open up to 3 to 3½-in., non-fading blooms. The 2½-ft. plants are well clothed with glossy dark foliage, and the bush is constantly renewed by the freely sprouting basal shoots. This new prize-winner is a welcome addition, with larger flowers, glossy foliage and sweet Rose fragrance. It has been successful in all areas. (Pl. Pat. Applied for.)

OUR Guarantee IS YOUR PROTECTION

OUR GUARANTEE—We offer you only one grade of Roses—the finest. We unconditionally guarantee every plant we ship to be of first quality, true to name and class, sturdy and free from disease, and to reach you in perfect condition.

We guarantee every plant to flower the next normal blooming period after planting.

We will replace any plant free of charge, any plant which does not perform according to the above guarantee, providing you have carefully followed our directions for planting and care, and providing your report so states and is filed with us on or before August 1st. **Shipments made on the preceding fall or spring.**

Send copy of order on which replacements are being made when requesting a replacement.

YOUR RESPONSIBILITY—Roses need comparatively little care—especially the new improved varieties. But they must be given fertile soil, sun and water, and proper cultivation, to keep them vigorous. We send you planting and cultural instructions in each shipment. Follow these and you will be rewarded with healthy growth and prolific blooms.

FUSILIER

(Right) A fragrant, flaming orange-scarlet Floribunda Rose that blooms

freely and continuously. The 30 to 36-in. plant has large, leathery, lustrous dark green foliage. Dark red buds slowly open to 3 to 3½-in. flowers, with large attractive petals that are flaming orange-scarlet in warm weather, with dark overtones and an underlying incandescence when the weather is cool. Flowers have up to 40 petals, with margins frilled and ruffled. (Pl. Pat. Applied for.)

Gail Borden

(Left)

In Honor of the 100th Anniversary of the Borden Co.

A large, glamorous Hybrid Tea with a warm combination of pastel pink and apricot shades. The high-centered bud, soft yellow outside and lovely glowing apricot on the inside, opens gradually to an immense flower of warm pink. The 5½ to 6-in. flower is entirely different from any other Rose now in use... the snap and warmth of the color combinations exudes an over-all feeling of friendliness and style. The tall plants are covered with luxuriant, dark shiny foliage that is unusually healthy and handsome. One of the best Hybrid Tea Roses to come out of Germany, it was named for the founder of the 100-year-old milk company. A marvelous Rose to give a new look to gardens, it will be a great favorite of American gardeners. (Pl. Pat #1618.)

Million-Dollar Rose!

(Right) The Largest Yellow Hybrid Tea Rose in Existence! The graceful flowing lines of the long golden buds catch the eye immediately. As they mature, an occasional blush of red caresses the edges of the slender, 1½ to 2-in. buds. Throughout the entire season they unfold slowly, giving way to majestic, high-centered flowers of rich golden yellow, carried on long, sturdy stems. Imagine a plant with constantly repeating, radiant blooms that often reach 6½ to 7½ in. across, with a full but open center. Even before these magnificent flowers appear, the bush adorns itself with nearly perfect, glossy green foliage. Its extremely pleasant old-Rose fragrance will fill your garden. Perfect for cutting. AIDA (Left) Rich spectrum-red blooms are deeper and more lustrous in color in the slow-opening buds. Finishing a clear, clean rose-red, the 5-in., semi-cupped flowers are lovely in all their stages. The velvety, heavy-textured petals are not affected by hot or wet weather. These gracefully cupped blooms are composed of about 25 petals, curling back as the flowers open. They are richly fragrant from the bud stages until the final petal drops, which greatly enhances the charm of this exquisite Rose. It is wonderful for cutting and arranging indoors, where its full beauty may be completely appreciated. The symmetrical plant will reach a height of 3 ft. and is covered with very attractive, rugged foliage. It blooms very freely all season long, from spring to frost. Named for the heroine of Verdi's most famous opera, this new Rose displays the same majestic grandeur and dark beauty as its namesake. Like the Ethiopian Princess herself, this royal member of rosedom will capture your enthusiasm and admiration for many years to come. (Pl. Pat. #1639.) \$2.50 each; 3 for \$6.60; 12 for \$26.40

Twilight New Unusual Color! Lavender-Lilac!

(Above) A lovely new pastel tint of lavender-lilac with a light silvery reverse. The bud is pointed, and the flower opens gradually to a high-centered bloom of average size, with moderate fragrance. The pastel

tints of the two tones make this a perfect specimen for formal and informal arrangements for both professional and amateur arrangers. Flowers are usually borne singly, on 12 to 15-in. stems. The plant grows 20 to 24 in. high and has excellent foliage of deep, dull green, very neat and decorative. This variety seems to show its best color under normal rather than extreme conditions. As a novelty it is outstanding and also as a further advance toward the blue Rose. (Pl. Pat. #1434.)

(Right) A very large, tall-growing, cool pink Hybrid Tea. High-centered flowers of exhibition size and quality, which open slowly and gracefully. The petal edges are deeper pink, giving a lovely variation. The deep rose-pink, ovoid buds hold their clear clean color. Handsome polished dark green foliage, very disease resistant. Pink Lustre will be widely used for exhibiting and admired for its classic form and luminous color. It is a descendant of Peace. The 2½ to 3-ft. plant is well balanced and vigorous. (Pl. Pat. #1641.)

WHITE KNIGHT All-America Winner!

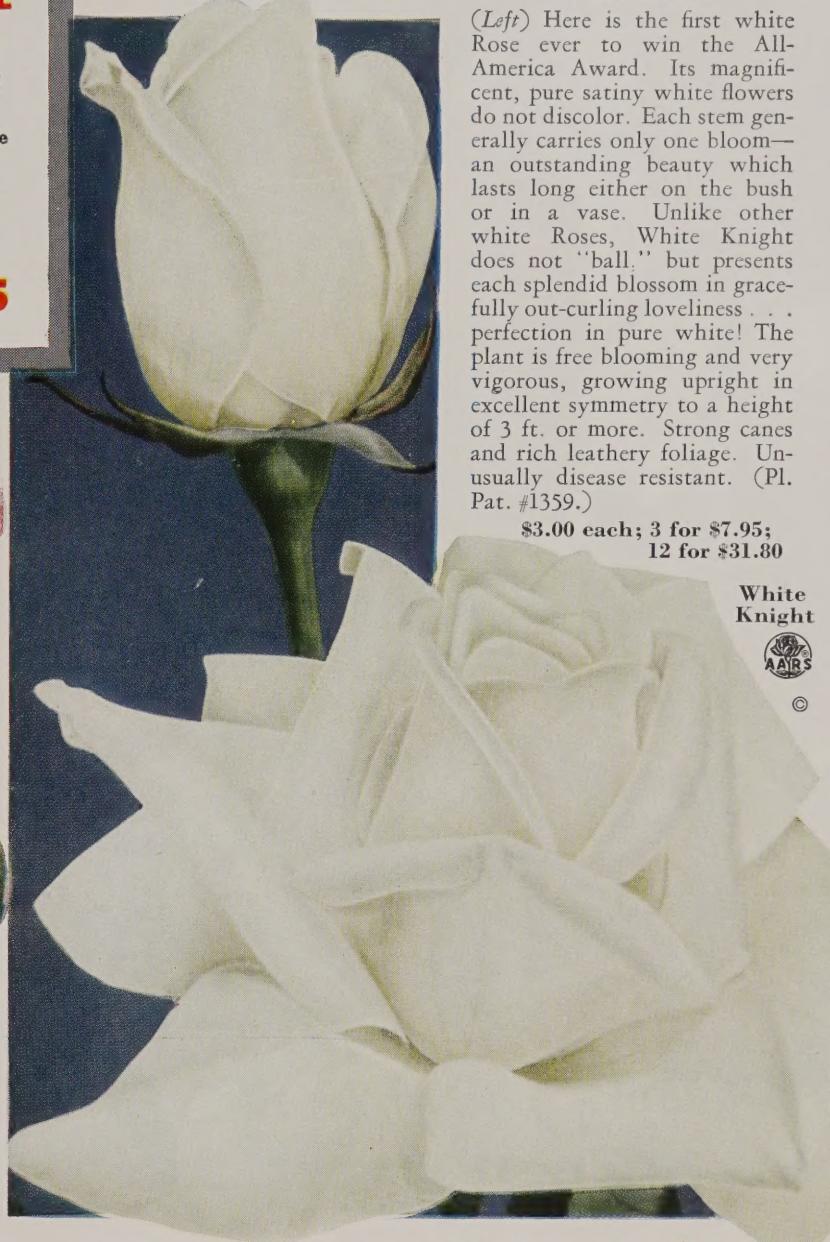

(Left) Here is the first white Rose ever to win the All-America Award. Its magnificent, pure satiny white flowers do not discolor. Each stem generally carries only one bloom—an outstanding beauty which lasts long either on the bush or in a vase. Unlike other white Roses, White Knight does not "ball," but presents each splendid blossom in gracefully out-curling loveliness . . . perfection in pure white! The plant is free blooming and very vigorous, growing upright in excellent symmetry to a height of 3 ft. or more. Strong canes and rich leathery foliage. Unusually disease resistant. (Pl. Spartan THE WONDER FLORIBUNDA ROSE!

(Left) Greek legend tells us that the most beautiful of all women was the fair Helen, wife of King Menelaus of Sparta; did not two great empires clash over her? And no race of men ever existed as strong and vigorous as the Spartans . . . big, strapping warriors all. So what better name than "Spartan" for this hardy Floribunda? The beautiful display starts early . . . as scores of gorgeous burnt-orange buds begin to appear. Slowly they open to high-centered, Hybrid-Tea-shaped blooms with 35 to 40 petals . . . of sparkling warm ORANGE-RED, softening to reddish coral . . . with a sweet, old-Rose fragrance. The vigorous plant blooms constantly from early spring to severe frost . . . sometimes in clusters and sometimes singly. Enthusiastically acclaimed by testers, Spartan is destined to become one of the most popular Floribundas of all time. Long stems make it perfect for cutting, and there is no end to the flowers available for house use. Never before a Rose like this! For sheer beauty, breath-taking color, exquisite form, profusion of bloom, exceptional hardiness—for a combination of the qualities looked for in any Rose—Spartan simply can't be beat. It is truly the first perfect 20th-Century Rose ever developed—and will be the center of attraction in your garden for years to come. (Pl. Pat. #1357.)

GOLDEN FLEECE

Winner of Bagatelle Gold Medal, Paris, France

(Right) Golden Fleece, the Prima Donna of Floribundas, performs with all the grace and charm of a flirting ballerina. Such gay-colored buds . . . a lively tawny gold color. Slowly, dramatically they open to a light tone of rich, warm gold . . . then . . . as a grand finale, they flare into a bright, dazzling canary color! The flowers are unusually large for a Floribunda—actually 4 to 4½ in. across . . . growing in graceful clusters with as many as 20 individual blooms! And because Golden Fleece is a descendant of Diamond Jubilee, the blooms are extra long lasting. The vigorous, bushy plant displays unusually decorative, disease-resistant foliage in a medium shade of green. This beautiful winner of the Gold Medal at Bagatelle will be a welcome addition to your garden. Plant it this spring and enjoy its lovely, fragrant blooms for years to come. You'll really applaud this appealing yellow Floribunda that's as bright as the sunlight itself. When the curtain goes up on this talented show-stopper, you'll be delighted in having it in your garden. (Pl. Pat. #1512.)

FAMOUS EVER GROWN!

White Bouquet

1957 All-America Selections Winner!

(Right) An enchanting white Floribunda with sparkling 4 to 5-in. flowers and lustrous dark green foliage. The gardenia-like flowers open fully, with petals spreading out to an opulent white bloom, with a sweet spicy fragrance. As the flower slowly unfolds, the center petals remain upright, giving an unusually graceful appearance. When the center petals finally separate and open, the small circle of golden yellow stamens gives an added note of charm. Seen against the background of the smart green foliage, the effect is one of cool freshness and youth. The flowers are constantly produced, both in clusters and as individual blooms. They fill the need for a white Floribunda particularly nice for cutting. So easy to care for and so resistant to disease, White Bouquet is rapidly becoming a great favorite of home gardeners everywhere. (Pl. Pat. #1415.)

Betsy
McCall

Betsy McCall (Left)

Like its winsome namesake, the Betsy McCall Floribunda is delightfully captivating. The color is a soft coral with an overlay of gold, which pleasantly captures the eye with its simplicity and lasting quality. The 2½ to 3-ft. bush is well clothed with foliage. It has a neat habit and an abundance of slender buds and cupped flowers, which generally appear in airy clusters and occasionally on individual stems. They keep very well and are particularly delightful when used in small arrangements and bouquets. The plant has many of the characteristics of its parent Fashion, which of course is one of the most honored Roses nationally and internationally. In hardiness and vigor it equals Fashion, while in color it differs enough to be an exquisite companion. This 1956 introduction will capture your heart. Plant it this spring and in a few short weeks you will be delighted to see these exquisite blooms. Plant Betsy McCall and your garden is sure to be the envy of the neighborhood. (Pl. Pat. #1603.)

This beauty actually stole the show from a display including the largest assortment of flowers ever exhibited. Spectators were held spellbound by the huge, pointed, dark red buds that open ever so slowly to a blood-red . . . and finally to a darker shade of red that reflects a luxurious velvety sheen! Blooms freely during the entire season . . . and the plant is extremely healthy! The high-centered form and slow-opening characteristics . . . plus the dark red color and outstanding fragrance have sky-rocketed this unusual Hybrid Tea into the class of a Show Rose! Proud and upright, this hardy beauty grows on a strong stem.

If you want your Roses to be complimented, insist on having Konrad Adenauer in your garden. (Pl. Pat. #1452.)

CONTENTMENT (Left) Pointed, ovoid buds open up to delightfully fragrant, $5\frac{1}{2}$ to 6-in. flowers. These immense, high-centered blooms are a delicate pink suffused with yellow, keeping their vibrant, refreshing shade to the finish. The foliage is clean and rugged. Contentment is disease resistant and very prolific. We consider it to be one of our better Hybrid Teas in the pink color range. It is easy to take care of and makes an excellent show Rose. The delightful fragrance and color can be enjoyed all summer long. Extremely hardy, Contentment will fill your garden with beauty from spring to frost. $2\frac{1}{2}$ to 3 ft. (Pl. Pat. #1644.)

(Below) The intriguing tawny gold color outshines everything around it! Flower arrangers love the tantalizing color, which blends buff, bronze and gold in an enchanting way. The petals of Tawny Gold acquire a quaint frilled edge which adds to the charm of the open bloom. Two or three blooms will fill a whole room with their fruity perfume. Another feature of Tawny Gold is its ability to last a long time both on the plant and indoors. Few Roses can compare with this gem, and we are sure you will see what we mean when it blooms in your garden. Holly-like foliage is another one of Tawny Gold's good points. The $2\frac{1}{2}$ -ft. plant is bushy and compact and will bloom very freely. (Pl. Pat. #950.)

WHITE SWAN

(Right)

A fine exhibition variety of pure white, with upright bush, which is rare in a white Rose. Long-pointed, graceful buds of alabaster-white open slowly to dazzling, stark white blooms up to 4 in. across. The elegant, high-centered flowers are produced freely all season long on 2-ft. stems, enabling you to enjoy them in your garden and in bouquets. White Swan has ample, dark green foliage that is disease resistant as well as restful to the eye. Its pleasing Rose fragrance, though not dominant, is very effective. The 3 to 4-ft. bush is vigorous and requires little care. It will stand up under adverse conditions and bloom freely all season long, year after year. Good white Roses are rare; don't overlook this one. It is a real prize. (Pl. Pat. #1115.) \$2.25 each; 3 for \$6.00; 12 for \$24.00

New Yorker THE **BEST** RED ROSE OF ALL TIME!

(Below) The universal appeal of the Red Rose is justified in New Yorker. It displays immense blooms of resplendent scarlet with dark overtones of a rich velvety hue on each of its beautiful, well-shaped petals. New Yorker, the epitome of Red Roses, dresses itself in red from beginning to end, starting with the new shoots of bright red. Buds of perfect form and texture open slowly to tremendous, sparkling red flowers often measuring 6½ in. across. The Rose world has long marveled at its rich dark color and the magnificence of its blooms. Unlike most Red Roses, New Yorker's sparkling color does not fade but stays a deep rich red until the last petals wither and fall. Needless to say, it is a top favorite with flower arrangers everywhere. The 3 to 3½-ft. bush is vigorous and easy to grow and is adorned with healthy foliage. It produces a continuous succession of bloom from June right up until frost. (Pl. Pat. #823.)

Seedling of a Famous Parent! PEACEFUL

(Right) This graceful Hybrid Tea's name is symbolic of harmony and friendliness. This delightful, double Rose reaches $5\frac{1}{2}$ to $6\frac{1}{2}$ in. across, lending stately charm to your entire garden and everything around it. The bright, cheerful color of the bud gives only a hint of the glorious latent beauty that is revealed in the color of the fully open bloom. Large, ovoid buds open slowly; when only half open, the light coral outer petals that are suffused with pale apricot bend slightly, revealing the luminous deep coral-rose-pink of the inside of the petals, making a most attractive pattern against the lighter reverse.

An exceptionally strong plant that reaches a height of $2\frac{1}{2}$ to 3 ft. The large, fully open flower is partially cupped and supports about 50 luxurious petals, while retaining the same pleasing color only slightly less intense in tone. (Pl. Pat. #1599.)

DETROITER (Below) Vibrant and alive with color, Detroiter has buds of rich carmine-red with dark velvety overtones. Opening slowly, these buds give way to spectacular bright red, high-centered blooms that reach $5\frac{1}{2}$ in. across and have 20 to 25 crisp petals. But long before the buds appear, Detroiter begins adding beauty to the garden, for the extra-large, glossy green foliage begins clothing the plant in April and May. Then late in May and early in June the buds begin to unfold. The tall, bushy plant has an abundance of this pleasing dark green foliage, which adds to the eye-capturing effect. Basal shoots make Detroiter a strong, well-balanced plant. The most popular color in a Rose is Red! Detroiter is a welcome addition to the realm of red Roses, and at the same time it honors one of America's most vital cities. (Pl. Pat. #1219.)

ENCHANTMENT (Above, Left) A delightful, ever-blooming Hybrid Tea that will be a high spot in your garden in a few short weeks! In early season, it develops a great display of large, stately buds, apricot-tinged outside, deepening to clear yellow at the base. These open gracefully with high-centered form, producing huge, long-lasting blooms of entrancing peach-pink color. They attain 6 in. across at maturity, with as many as 35 glorious petals per flower. Plants are vigorous and upright, growing 2 to 3 ft. high, with a wealth of dark green, disease-resistant foliage. It required years of careful breeding by experts to create this truly distinguished Rose . . . so be among the first in your neighborhood to display its enchanting beauty. The bush is never without flowers from June to late fall. Plant it this spring and have Enchantment for years to come. (Pl. Pat. #737.)

OPERA (Left)

Opera was the sensation of France in 1948 when it was awarded a Gold Medal as the most beautiful Rose in that country. Long slender buds of scarlet with golden yellow at the base are delightful. Magnificent 6-in. blooms of flaming light scarlet with buff-yellow on the reverse cover the plant all summer. The general effect is airy and bright. These high-centered blooms have slightly quilled petals of extra-good substance and are borne on long, strong stems appropriate for cutting. A vigorous, upright bush with quantities of green, leathery foliage. Among other achievements are awards given in this country as well as Gold Medals in London, Geneva and Bagatelle. (Pl. Pat. #1017.)

PEACE (Above)

Peace has already taken its place among the most distinguished yellow Roses of all time. The ovoid buds are golden yellow, etched with pink. As they open, they change from canary-yellow, to pale gold, to iridescent cream. Petals are edged apple-blossom-pink, which deepens as the glorious, 5 to 6-in. flower slowly opens. Peace brings ethereal beauty to your garden all summer long. The petals roll gracefully outward to form a very double, cupped flower with a high-centered golden heart. The plant is as superior as the bloom—hardy, vigorous, disease-resistant. Flowers are unusually large, borne on heavy stems. Masses of large, vigorous, shining holly-like foliage cover the entire plant. Best of all, the blooms are produced in glorious succession until frost. (Pl. Pat. #591.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

REX ANDERSON (Right)

An outstanding exhibition Rose of delicate ivory-white . . . perfectly formed and slow-opening, one of the most successful whites. Combining this lovely purity with artistic form and dependability, Rex Anderson adds a note of interesting contrast to any Rose planting. Its very perfection of form and color simplicity are a dramatic contrast of great loveliness. It may be grown to enormous size by disbudding. Exceptionally free and vigorous, with abundant gray-green foliage. Soft, fascinating scent. Always an excellent choice if you wish to achieve a garden-spot effect of frosty white. The 2 to 2½-ft. plant is disease-resistant and hardy. Rex Anderson is a "must" for the "white garden" or any other that requires beauty. It has a garden history of almost twenty years. (Pl. Pat. #335.)

J&P's Modern Dozen at an

A SONATA. Cochineal-red in spring and fall, in summer lightening to unusual hues of deep lively pink. Outside of the petals is several shades darker than inside. The large flowers are perfectly shaped, opening gradually from long, pointed buds. A continuous bloomer, resistant to both sun and heat. Very hardy, vigorous, upright growth. (Pl. Pat. #732.)

B MANDALAY. Long-pointed, golden yellow buds unfold gracefully to large, high-centered blooms. These golden yellow flowers open slowly and perfectly and have as many as 40 unfading petals that are firm and long. Flowers up to 6 in. across. The ample, heavy foliage is very dark green. The 3-ft. plant is very free blooming. (Pl. Pat. #775.)

C REX ANDERSON. An outstanding exhibition Rose of delicate, lovely ivory-white... perfectly formed, slow-opening. Its perfection of form and color simplicity are a dramatic contrast of great loveliness.

2 to 2½ ft.; disease-resistant foliage. Vigorous, upright growth. (Pl. Pat. #335.)

D VOLCANO. *Really Huge.* These are the only words that describe the tremendous size of the blooms produced on Volcano. Blooms that actually open as much as 7 in. Across! The flowers are a live, glowing cherry-red that seems to lighten the surroundings, and then slowly softens to a rosy pink. A strong, bushy plant with dark green foliage. (Pl. Pat. #951.)

E KATHERINE T. MARSHALL. Grows vigorously with large, open, upright blooms of friendly, warm glowing pink. Bred to hardiness and perfect form. The growth and foliage are equal to the Radiance family. Fruity fragrance. Long fine stems, ideal for cutting. Highly praised in all sections of the country. Height 3 to 4 ft. (Pl. Pat. #607.)

F McGREDY'S SUNSET. Tinted with delicate orange and rich scarlet. Best loved of the Irish Roses. Fragrance freshly sweet; generous when cut, haunting, old fashioned. A 20 to 30-in. bush covered with many blooms. The globular, double, well-shaped flower has 40 petals. Resistant to sun, hot weather and disease. (Pl. Pat. #317.)

G ELLINOR LE GRICE. An exceptionally large, bright golden yellow Rose, that you can depend on for unfailing bloom. Keeps a steady pace, producing full double, 6-in. blooms constantly from June, week-in and week-out until frost. Full ovoid bud of deep yellow, changing to strong clear yellow as petals unfold. Striking in any garden. (Pl. Pat. #917.)

H VALIANT. A bold red with a particularly lovely bud. The bloom is luminous crimson, becoming bright red as it opens. High centered and bold in its color and erect manner. Frequently 5 to 6 in. across, with about 30 tea-scented petals. Bushy, upright grower. Foliage is leathery, large and dark. The plant grows to a height of 2 to 3 ft. (Pl. Pat. #914.)

I MARY MARGARET McBRIDE. Pointed buds, deep coral-pink, slow opening. The double blooms are large and high centered, with shimmering gold at the base. Each flower has 35-50 petals. The foliage is dark, leathery and glossy. Vigorous and bushy; 2 ft. tall. (Pl. Pat. #537.)

J RUBAIYAT. A brilliant red with a profusion of long, graceful buds appearing early in June. As the buds open, a glorious riot of deep, scintillating crimson is revealed in the very hearts of the blooms. This vivid burst of color is accentuated on the outside of the petals by a tone shades lighter. Height 4 ft. (Pl. Pat. #758.)

K DICKSONS RED. This glowing scarlet-red Rose "has everything" . . . flashing color; large, high-centered form; rich fragrance; abundant, continuous bloom; and a strong, sturdy bush standing the very hottest sun with color undimmed. Dicksons Red will continue to be one of the leading Roses for years to come. Height 2 ft. (Pl. Pat. #376.)

L SERENADE. Exquisite burnt-orange buds and 5-in., brilliant, coral-orange blooms, produced freely on 3½-ft. plants. The edges of the petals are an interesting darker shade. The foliage is a shiny green and nicely balanced on the plant. In addition to being vigorous, the bush has a clean open habit. (Pl. Pat. #852.)

GREY PEARL The color is sensational! The color tones range from ripe olive-grey tinted deep pink through mauve and mauve-violet. The reverse of the shorter under-petals is light tan, gradually melting to soft lavender-mauve. 2 to 2½-ft., vigorous plant. (Pl. Pat. #680.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

LODESTAR Large, apricot buds open to grand, luscious peach-colored blooms. The outer perimeter is of longer buff-pink petals enclosing a full center of lively peach. The double blooms are carried on a strong, bushy plant that reaches 3 to 3½ ft. Its 4½ to 5-in., double flowers are heavily perfumed, like the Roses of old. (Pl. Pat. #1251.)

\$2.00 each; 3 for \$5.25; 12 for \$21.00

SUTTER'S GOLD Long-pointed, yellow buds are richly shaded with orange and red. The 24-petaled open flowers are high centered and richly colored. Sutter's Gold has a heavy tea fragrance that adds greatly to its desirability. The strong, vigorous plant is free branching. Large, glossy leaves are resistant to disease. Grows 2½ to 3 ft. tall. (Pl. Pat. #885.)

MRS. MINIVER (Bottom, Right Corner) Here is the spectacular cardinal-red Rose known as Mrs. Miniver and long to be remembered as the grand prize-winner in the movie of the same name. All over the country, rosarians in test gardens say "the color cannot be forgotten," "extra good in fall," "most beautiful red I know." The pointed, dark carmine buds become $5\frac{1}{2}$ to 6-in., cardinal-red blooms having an attractive cupped shape and ruffled petals; delightful old Rose fragrance. This spectacular, perfectly formed Rose wins endless devotion. Vigorous; 30 in. tall. Order now and enjoy the famous Mrs. Miniver Rose in your own garden. (Pl. Pat. #725.)

MARDI GRAS (Below, Left) This Rose is as exciting and gay as the festive season it celebrates. The bud is very dark red, and the flower keeps the full rich color. As the bud opens, the high center gradually unfolds and the outside petals reach to more than 5 in. in diameter, with a deep sparkling red color at the finish. The flowers are borne freely, and the plant thrives as well in hotter climates as in the rest of the country. Pleasing Damask or old Rose fragrance. The $3\frac{1}{2}$ -ft. bush extends long, strong, vigorous canes and stems that make it excellent for cutting. An abundance of healthy, attractive foliage forms a perfect background for this particularly lovely Rose. (Pl. Pat. #1139.)

★BETTER TIMES. Brilliant cerise blooms with long stems. Pronounced and enchanting fragrance. A hardy plant, medium tall.

★CRIMSON GLORY. In survey after survey, Crimson Glory has repeatedly been one of the ten most popular Roses in America. It is so beautiful and at the same time so dependable that it deserves a place in every Rose garden. Beautifully formed blooms of deep vivid crimson, held proudly on vigorous bushes. Its fascinating fragrance alone would make Crimson Glory an instant favorite. Voted by far the most fragrant Rose by the American Rose Society. Height 2 to 2½ ft.

★CONDESA DE SASTAGO. Two-toned coppery pink inside, golden tint outside.

★COUNTESS VANDAL. Acclaimed as the most artistic bloom in rosedom. Copper, bronze and pink, flooded with gold and reflexed with silver. Most widely used exhibition Rose. Very effective in table arrangements. A good plant of moderate size.

★ETOILE DE HOLLANDE. Bright red; large; loose; semi-double; fragrant. Vigorous. One of the most dependable and free-blooming older Hybrid Teas.

★ECLIPSE. Streamlined and modern . . . these slim tapering buds set a mark in grace and daintiness, often exceeding 2 in. in length! The best all-purpose brilliant golden yellow Rose in all climates! Plants are vigorous, producing abundant bloom.

McGredy's Yellow. Large; bright buttercup-yellow. Exquisite bud and flower. Probably the best known of McGredy Roses.

★MRS. PIERRE S. DU PONT. Deep golden yellow, slightly lighter with age; semi-double.

Items Starred are illustrated

★LYDIA. A clear, vivid yellow, cup-shaped bloom. Although not a tall grower, this variety is a constant source of colorful flowers. The deep green, glossy foliage is decorative, and the rich clear yellow blooms glitter in contrast. The plant is very hardy, medium tall, and bushy.

★NUMA FAY. Very full-petaled; light coral-pink, satiny and fragrant. Free-blooming.

★POINSETTIA. Long, pointed, perfect buds; glowing fire-red. Vigorous. Fine for cutting.

President Herbert Hoover. Maroon and orange, two-tone. For years this has been the most popular two-tone Rose. Vigorous; free-blooming; fragrant.

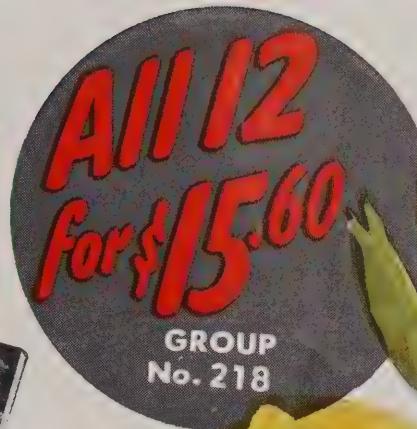

Radiance. Cameo-pink; large, intensely fragrant. Blooms all season, in all climates. Tall.

Red Radiance. Very large; long-lasting; intensely fragrant; clear, even red. Tall.

SIGNORA. Buds warm brownish orange, opening to lighter mandarin and salmon. Blooms are double and very fragrant, on long strong stems. Foliage rich, glossy dark green. Tall, vigorous growth. 30 to 36 in.

★K. A. VIKTORIA. One of the daintiest and most delightful of all white Roses. Produces great quantities of pure white flowers all season. Fragrant and long-lived. Height 24 to 30 in.

Frau Karl Druschki. One of the purest white Roses. Very double, very large and long lasting. Noted for its extreme toughness and vigor. Blooms heavily. Can be used many ways . . . informal hedge, mass plantings, large flowering shrub, pillar type against walls, fences.

3 Fine Floribundas

TO MAKE YOUR GARDEN ENVIED!

JIMINY CRICKET

(Left) A pert Floribunda with masses of tangerine-red buds which open to a sharp coral-orange-vermilion and finish a pink-coral, almost like Fashion. The unusual coloring is the result of a crossing of Geranium Red, which has blended and softened this red to a very lovely new coral-rose shade. Although it does not have the same Geranium Red fragrance, Jiminy Cricket has a distinctive, pleasing Damask scent. The bush is covered with glossy green foliage; young leaves are glossy bronze, attractive even without flowers. The color never blues or becomes unpleasant, and the 3½-in., cupped flowers are intriguing in the garden and when cut. The upright growth of the bush makes it ideal for hedges and for massing. It grows 4 ft. in height and blooms from June until frost. (Pl. Pat. #1346.)

Amy Vanderbilt

(Below) The modern sophisticated purple-lilac to lavender-lilac introduces a rich, friendly and daring color for novelty and startling new effects. From early bud to fully opened flower, the color changes slowly from an opulent purple-lilac to a lavender-lilac color and finishes a lovely cool lavender. The 2½ to 3-in. flowers grow in clusters of 4 to 8 individual blooms and are delightfully fragrant. This new color is a great step ahead in the Rose world and is a great challenge to many Rose lovers. Here in the Amy Vanderbilt Rose is a world-wide new color in Roses that is greatly admired by Rose growers and arrangers alike. (Pl. Pat. #1585.)

A Wonderful Way to Get All the J&P Prized Roses and Perennials You Want Without Cost!

The J & P Club Plan is becoming more popular each season, as more and more people have been taking advantage of this unique idea.

Here's How \$25-\$50-\$100 Worth of Roses Can Be Yours Free!

Through this new J & P Club Plan you can help your friends start a Rose garden of their own—and, for introducing our Prized Roses and Perennials to your friends, we will give you \$25, \$50, even \$100 worth of J & P Plants plus a free premium for you and your members! It's easy to organize a J & P Club in your neighborhood . . . You don't spend a single penny . . . Your friends buy the plants they want for \$1.00 per week. Yet, for your efforts, you receive \$12.50 worth of J & P Plants for every 5-member Club you form.

To receive complete details on how to become a J & P Club Secretary, fill in the card found in this Catalog.

**NOW AVAILABLE FREE OF CHARGE—
2 BEAUTIFUL COLOR FILMS!**

Modern Roses on Parade

Modern Roses on Parade is a delightful 16-mm., 30-minute sound film that depicts in Kodachrome the full beauty of America's favorite flower, the Rose. Available free of charge, excluding transportation, to adult groups of 50 persons or more. The film tells the exciting and educational story of the creation and growing of modern Roses. Close-ups of well-known varieties and views of the world-famous JACKSON & PERKINS Rose Gardens with rich displays of masses of gorgeous Roses form only a few of the breathtaking scenes. For booking requests, write Films of the Nations, 62 W. 45th St., New York 19, New York.

Modern Chrysanthemums For Fall Beauty

Modern Chrysanthemums for Fall Beauty is a 16-mm., 20-minute sound film that depicts in Kodachrome the full beauty of J & P's "Bird Series" Mums. Available free of charge, excluding transportation, to adult groups of 50 persons or more. The film tells the exciting and educational story of the creation and growing of modern Chrysanthemums, their place in various types of gardens, and their countless uses. Scenes in the film show how the spectacular colors of these new Mums transform faded gardens and even excel nature's own coloring. For booking requests, write Films of the Nations, 62 W. 45th St., New York 19, New York.

CIRCUS

(Below) A unique addition to the All-America family. It is the first "multicolor" to be selected for an award. The ever-changing colors vary from rich yellow and red in the bud to orange-buff flushed apple-blossom-pink, and usually end with a gay flourish of red. The bud is beautifully formed, and the many-petaled, high-centered flower opens gracefully. The full, well-rounded plant is low to medium in height, with attractive foliage. (Pl. Pat. #1382.)

When filling out your order it is most important for all members of the same household to order under one name.

In order to help us keep our records straight please use your address plus your zone number which we have imprinted on the front of the catalog envelope. If for some reason this address should be incorrect, please attach a slip of paper to your order correcting the address.

We are also finding cases where customers are using a borough or a suburb of a city and also the city itself. For example, Bronx and New York City or Germantown and Philadelphia. Again please use your city or borough as imprinted on the front of the catalog envelope.

It would be greatly appreciated if you would help us to see that your orders are sent to you correctly without any delay.

HOW TO REMIT

The best way to send payment is by check, U.S. Postal Notes or by Post Office or Express Money Order. Do not send stamps or currency because we cannot assume any responsibility unless sent by registered mail.

SHIPPING DATES

We will send your order at the proper time for planting in your locality. It is not necessary for you to specify a shipping date.

ITEMS NOT LISTED

Any variety of Roses, Perennials or other material which is not listed on the order blank or in the catalog is unavailable for the current season. Plants not listed will be in our future catalogs when available.

PLEASE DO NOT ASK US TO CHANGE YOUR ORDER

We handle thousands of orders within a very short season, and it is impractical to locate individual orders for changes. We want to accommodate our customers but it is impossible to find any particular order quickly during the shipping season.

- Rustproof Metal Alloy Construction Throughout!
- Weighs only 1 1/4 pounds!

The New Midget Duster and 1 Pound Package of J & P Rose Dust and Extension

Only \$9.95

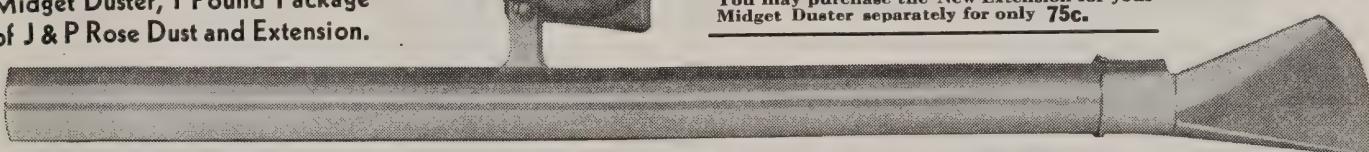

FREE with Each
Midget Duster, 1 Pound Package
of J & P Rose Dust and Extension.

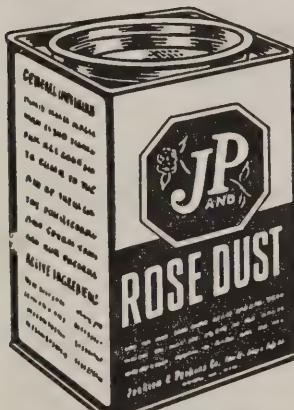

An engineering masterpiece, this tiny hand-operated rotary duster is the smallest in the world; yet, it is capable of throwing an 8-foot stream of dust. Holds enough powder in one filling to cover 200 Rose Bushes. This tiny, unbelievably efficient duster is all metal, even to its pistol grip handle. The gears are sturdy enough to continue operating indefinitely. Now,

with each duster you will receive an extension, 1 1/2 feet long, enabling you to reach taller bushes and to dust hard-to-get places inside of the bushes. An adjustable funnel on the end makes it easier to dust under leaves. Made of rustproof metal alloy it will last a lifetime. The Midget Duster, Extension and 1 lb. of J & P Dust for only \$9.95.

You may purchase the New Extension for your Midget Duster separately for only 75c.

MINIATURE ROSES

... PRECIOUS JEWELS OF THE ROSE FAMILY!

BABY MASQUERADE (Above)

A real novelty in the smallest of Roses, with many colors on each plant at all times. The exact replica of Floribunda Masquerade with tiny yellow buds that open to rich yellow blooms, eventually turning pink and finishing a very pleasant deep red. 8-in. plants bloom from May to November. (Pl. Pat. #1580.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

TWINKLES (Above)

The new miniature Rose Twinkles is a lovely white, which sparkles in the sunlight with its many tiny blooms. The fully double flower has just a slight fragrance. Many flowers are produced all summer long on a compact bush that stays comfortably low. See how appealing it will be. (Pl. Pat. #1407.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

ROSA ROULETTI (Above)

Perfect little double rose-pink flowers on a 4 to 6-in. plant, just as dainty as the Roses. The little Swiss Rose that was lost for many years; now treasured in American gardens. Very easy to grow.

\$1.00 each; 3 for \$2.50;
12 for \$10.00; 25 for \$18.75

NEW! DWARFKING (Above)

Exquisitely formed miniature buds open to flowers no larger than a postage stamp. From the bud to the open flower with its starlike edges, this is a personification of the ideal in Rose flower form. The flowers are fully double and lightly fragrant. The color is a clean blood-red, and the dark red bud is perfect for a boutonniere. Flowers are usually borne in clusters and sometimes on individual stems, but the plant is always in bloom. Completely hardy plants will build up in size year after year. (Pl. Pat. #1577.)

\$1.25 each; 3 for \$3.30;
12 for \$13.20

OAKINGTON RUBY (Not illustrated) Deep carmine buds, open to rich ruby-crimson. Fully double flowers smaller than 1 in., even fully opened. Less than 12 in. tall. Free flowering from May to November; demands no special attention except cover in cold winters.

\$1.00 each; 3 for \$2.50; 12 for \$10.00; 25 for \$18.75

6 Everblooming FOR THE ROSE GARDE

Rochester

© J. & P. CO.

ROCHESTER (*Left*) One of the older Floribundas and still considered to be one of the finest. Very popular with those who know Roses well. Blooms freely in a warm, rich tone of light yellow. All season long, Rochester will give you enchanting blooms of almost Hybrid Tea size. No other produces more blooms per plant. The medium large, double bloom is soft yellow, flushed orange carmine on the reverse. Rochester is remarkably hardy, sturdy and vigorous, with generous production of clustered blooms. Moderate fragrance. 2½ to 3-ft. plant.

GARNETTE

(*Left, Below*) Surely everyone has seen Garnette displayed at flower shows throughout the nation. These petite red Roses are very popular for corsages. We believe there is not another Rose on the market today which has more perfect form or better lasting qualities when cut for indoors. Actually it will last from a week to 10 days. Its garnet-red "sweetheart" flowers, about 2 in. in diameter, are borne in clusters of 15 to 20. Abundant masses of crinkled, holly-like foliage on an 18-in. plant. Garnette is excellent for the foreground of your Rose beds.

Pinocchio

Thousands of our customers know and love Pinocchio. Its delicate beauty goes straight to your heart. Great clusters of gracefully pointed buds of rich salmon flushed with gold at the base open up to long-lasting, exhibition-formed blooms like miniature Hybrid Teas. As the "sweetheart" flowers open, they change to soft lucid pink and shade into deeper pink at the edges. This persistent bloom continues all summer. The

Pinocchio

20 to 24-in. plant is extremely hardy. The ample, dark green foliage is very disease resistant. Carefree as the puppet Pinocchio are the captivating buds and blooms of this favorite. (Pl. Pat. #484.)

(Below, Right) We are greatly pleased to offer the world-famous Blaze in the form of a captivating Floribunda. Prolific in flowering and richly warm in color, this cheerful Floribunda has delicate, semi-cup-shaped flowers with interesting fluted petals. A vigorous, 3-ft. bush produces an abundance of deep red, pointed buds that mature into velvety red when open. Finishing a few shades lighter, the bright color is much enhanced by the white eye at the center of the flower. Does not blue or fade. Excellent for group plantings, hedges and especially as a base planting for Blaze Climber. Plant Baby Blaze this spring and in a few weeks you will be delighted with its magnificent display. (Pl. Pat. #1362.)

GLACIER

(Above) As cool and invigorating as the breeze that blows over snow-capped mountains! Burst out in June with dozens upon dozens of icy white buds that glisten and dance like icicles in the sun. These ice-like buds seem to melt away as they slowly open into soft snow-white blooms! 4 1/2 in. across . . . borne either singly or in clusters. Really large blooms for a Floribunda. And these white Roses are in bloom right up until frost . . . covering the plant with drifts of snow all season long! The hardy, vigorous plant is very bushy and well branched, reaching a height of 2 to 2 1/2 ft. (Pl. Pat. #1025.)

Red Pinocchio

(Above) Picture-perfect buds are a deep satiny carmine-red on the outside and a brighter carmine on the inside. The 3½-in., Hybrid-Tea-shaped blooms are cupped, with about 25 to 30 petals, and present masses of clean red color all season long. They are carried in large, long-lasting clusters that are unfading. The upright bush is vigorous and free flowering, with long shoots and the excellent foliage found on all the members of the famous Pinocchio family. The extremely hardy bush is very easy to grow and is always in bloom. Hundreds of flowers on every bush. A fitting and welcome companion for the other Pinocchios, which will surely delight you. (Pl. MASQUERADE

(Left) Truly unique and different, each cluster of 10 to 25 buds shows blooms of yellow, red, pink, lemon and sometimes orange. All these colors appear at once in a magnetic combination. Each bud is golden yellow, with tiny vermilion marks. The center bud in each cluster opens first, becoming rose-pink as the petals unfold. Gradually the rose-pink deepens until it is a deep red. While the first bud in any cluster is going through these stages, other buds are gradually developing, each one passing through the same lovely color sequence. Because of these unbelievable clusters and the range of colors through which each bud passes, Masquerade gives your garden a festive look. These gay, 3-ft. plants will brighten up your house and garden. Masquerade is an excellent example of Nature's Most Astounding Color Transformations! The healthy bush has rather open growth. (Pl. SUMMER SNOW (Above) Fabulous clusters of fluffy white blooms all season, from June to late fall. Starts early with a magnificent display that covers the plant with masses of 2-in. blooms . . . 12 to 15 in each cluster. Sweet, elusive fragrance. Then throughout the summer new flowers develop as fast as the old ones fade, providing a continuous display for mass planting or beds. Plants are about 20 in. tall, with light green foliage. One of the most popular Floribundas for hedges. Especially effective for masses in front of evergreens or flowering shrubs. A group of Summer Snow Floribundas is a striking accent point anywhere in the garden where its clean sharp white shows against a green background or in contrast with other flowers. Plant it this spring and you will be delighted with the abundance of bloom. (Pl. Pat. #416.)

PINK BOUNTIFUL (Left) You will prize this lusty Floribunda in your garden for its soft pink flowers with their dawn-like glow. Large, lasting bloom clusters provide a fresh and profuse mass of color all summer long. When fully open, the colorful flowers measure up to 3 in. across, looking like miniature Hybrid Teas. Pink Bountiful will go equally well in Rose beds or mass plantings. Ovoid buds are tinted deep reddish pink and unfold demurely into flowers with buff-salmon-pink hearts, flushing into a deeper pink at the outer petals. The nutty fragrance adds to its charm when used in flower arrangements or nosegays. Its season-long bloom, delightful color and fragrance make it unusual and effective in any location you may choose. With all its pure delicacy of form and color, Pink Bountiful is hardy and easy to grow. Height 2 ft. (Pl. Pat. #601.)

(Right) The brightest, reddest Rose you ever saw! A brilliant fiery scarlet that rivals the "red" used by the great Venetian master, Titian—a flaming red that sparkles and glows like a precious ruby. And, unlike an ordinary red Rose, this deep blazing red really lasts . . . from exquisite bud form until the last petals fold up and float away. And the flower itself is every bit as breath-taking as the color. Full, 3 1/2 in. across, with beautiful ruffled petals. Even in extreme heat, these lovely red beauties keep their form and color, setting your garden ablaze all season and providing scores of cut flowers for arrangements and boutonnieres. The foliage, too, is lush and attractive. The vigorous, compact plant reaches 2 ft. Siren blends well with all its garden neighbors. A truly outstanding creation. (Pl. Pat. #1197.)

CHATTER (Below) Especially bright crimson, velvety-petaled flowers $2\frac{1}{2}$ to 3 in. across. Produced in generous clusters, the dainty buds open slowly until each cluster bursts with handsome crimson flowers. These enormous clusters last two and sometimes even three weeks. As one flower finishes, new buds open to take its place. Sturdy and hardy, with an 18-in., disease-resistant bush. Long-lasting . . . remarkable flower clusters continuously from early spring to late fall. The bright clusters of Chatter are so persistent . . . so completely everblooming that they are NEVER without color. Plant Chatter in beds and borders where you want a dependable color mass. (Pl. GERANIUM RED (Left) Imagine a Rose that looks like a geranium and has the same spicy fragrance! The 4-in., camellia-like flowers of vivid spectrum-red border on the scarlet of the old-fashioned geranium. The very double blooms, with about 50 petals, are borne in clusters. Buds are dark oxblood-red, and the tumbled pattern of inner petals shows a brighter color in lovely contrast to the dark buds. Vigorous and hardy, the plant will reach 2 ft. tall. In a class by itself because of its unusual color and utterly amazing geranium fragrance. The blooms appear both in clusters and also individually on single stems. An easy grower, the bush is compact and is not susceptible to ordinary Rose ills. (Pl. Pat. #811.)

Yellow Pinocchio

(Left) Here is another thrilling Pinocchio, with great masses of fragrant, apricot-yellow blooms and the same sturdy bush. The plant grows about 3 ft. tall and when at its peak of bloom is a rounded mound of yellow. The petite buds have touches of red on the outside petals and are carried in large clusters. The foliage is dark green, tough and very disease resistant. This sturdy, healthy and free-flowering member of the Pinocchio family is a welcome addition to the Floribunda Roses and is as popular as its far-famed parent. The 3 in., fully double blooms are long lasting and come continually from spring to frost . . . hundreds of blooms to a bush. (Pl. Pat. #992.)

(Right) Here is a Rose that is so brilliant and so vivid that words or color illustrations just cannot do it justice. This new color is definitely one of the most scintillating hues we have ever seen. The beautiful flowers grow up to 4 in. in diameter, in clusters of 6 or more. Its brilliant orange-scarlet blooms are like flaming torches and are superbly accented by the rich glossy foliage. This beautiful variety grows from 2½ to 3 ft. in height, producing great quantities of foliage and forming a very compact bush. Here is a variety that does not fade and possesses a moderate old-fashioned Tea Rose fragrance. (Pl. Pat. #1036.)

BETTY PRIOR

(Left) Betty Prior, the Floribunda that no one ever tires of, is always a mass of bloom. As the center of attraction or just to beautify your home, it will provide delightful color. Delicate pink; spicy fragrance. In June its myriads of blossoms are a glorious sight. All through summer the buds and flowers, resembling red dogwood, continue to attract interest. Buds are lively red, opening shell-pink, having 5 petals, dogwood-like in shape, size and color. The healthy, vigorous, well-branched plants are sturdy yet delicate in appearance, with lush green foliage. An established plant in a sheltered position will grow 4 ft. tall or more. Large bloom clusters are borne in spring and continuously all season. Plant Betty Prior for hedges, specimens, foundation plantings. Use it in beds, for borders or backgrounds. It is the best Rose for curb plantings. This extremely hardy plant is one of the most versatile of all Floribundas!

J & P Climbers Make Everblooming Color and Beauty to Cover Drab Walls, Fences

NEW!

DON JUAN

(Below) True to the traditional hero of Tirso de Molina's drama, Mozart's most perfect opera, and Lord Byron's epic poem; this new climber constantly surrounds itself with beauty. In its quest for beauty, this new pillar rose dresses itself with an unusual number of velvety red flowers throughout the entire summer. In spring there is a burst of bloom, deep velvety red, five-inch flowers, both in clusters and singly with a delightful fragrance. The pointed bud is a rich deeper red and excellent for cutting. The flower retains its clean color until the petals drop to the ground. All through the summer there is a constant display of the rich fragrant red flowers, not only on the old wood but on new tall growing bottom breaks. The eight to ten-foot plant is well filled with dark green lustrous foliage. Highly resistant to disease and mildew, this new climber promises to gain great popularity, as its excellent quality of bloom, its color, and its fragrance become known. (Prop. Rights Reserved.)

CLIMBING GOLDEN SHOWERS

(Below) For the first time in 16 years the coveted national All-America Rose Selections Award has been won by a Pillar and Climbing Rose, GOLDEN SHOWERS. It is the answer to the landscaper's dream—a Rose variety that lends itself to landscape treatment as no other ever has. Exquisitely shaped, daffodil-yellow, long-pointed buds and

fragrant, high-centered 4½ to 5-in., open yellow blooms. Almost thornless, with long, beautifully decorative, bronze cutting stems, GOLDEN SHOWERS makes exciting cutflower arrangements. Trained as a Climber, it will attain a height of 6 to 8 ft. and will reach up and along a trellis or fence, putting forth an unmatched display of golden color. Or it can be shaped as a bush, with gleaming golden blooms that invite picking. This hardy everblooming Climber blooms from earliest spring continuously through until late fall. Highly resistant to Rose diseases. (Pl. Pat. #1557.)

The color is Coral Dawn's main attraction, but it is a superior Climber in every other respect, too. Here is an everblooming Climber of sparkling deep CORAL-PINK . . . the color that has become so popular in bush Roses, but unavailable in a Climber until now. The coral tone does not fade at any stage . . . from the dainty pointed buds to the slow-opening, graceful, long-lasting, 4½-in. blooms. The full, colorful blooms freely decorate the plant all summer long, in clusters of from 3 to 20 flowers. The lustrous, dark green foliage is disease resistant and sets off the coral-pink flowers. Easy to grow, this Climber does extremely well in all regions. (Pl. Pat. #1117.)

MORNING DAWN

(Below) As refreshing as the new day is this lovely color in Climbers. The large, 5-in. flowers are a dewy, silvery rose flushed with salmon, so it is a warm soft pink in all stages. A suffusion of yellow at the base of the petals only serves to enhance the Rose. One of the most fascinating things about this Climber is its unusually large buds, which are about 3 in. across and of the same color and fine texture as the full blooms. Magnificent, fully double blooms appear singly and on very long stems. Attractive shiny, dark, holly-like foliage decorates this 6 to 8 ft. pillar. You will be delighted with its performance and marvel at its large blooms and enchanting color. It will fill your garden with its sweet, spicy old Rose fragrance. Plant Morning Dawn this spring and enjoy its beauty and fragrance in your garden for years to come. Morning Dawn is well on its way to becoming a favorite of gardeners throughout the country. (Pl. THE NEW BLAZE

WHERE THE NEW BLAZE CAME FROM . . .

One particular plant that outbloomed and outperformed all others was found in the nursery years ago. During July, August and September this amazing plant continued to bloom constantly. We very carefully isolated this plant and used it as a stock plant from which to multiply this new strain of Blaze. After years of propagating from this heavily blooming type, we now have the new everblooming strain ready for sale. We guarantee it to bloom in June, July, August and September. You'll see how superior it is.

Magnolia Soulangeana. You need no longer admire the gorgeous spring blooms of the widely loved Saucer Magnolia in someone else's garden! Many of our plants are already budded; all are sturdy and will give you many years of enjoyment once they have become established in your garden. This magnificent variety, commonly called the Saucer Magnolia, bursts into glory early in the spring with a stunning display of 6-in. flowers that have generous, heavy-textured petals of glistening white with purplish or rose tones on the reverse side. One of the first trees to bloom in the spring, Magnolias are literally covered with flowers even before the leaves appear.

Later the foliage is broadly oval and a rich leathery green. It makes a very handsome ornamental tree, which under ideal conditions grows as high as 30 ft. A splendid tree for growing in smoky city areas. Good drainage rather than a rich soil is the prime essential for Magnolias. For best results apply fertilizer every two years. They are hardy in practically all sections of the country. If peach trees will live in your locality, Magnolias will do well there, too.

NEW Perennials!

Spring and Late Summer

12 in.

DIANTHUS, CAPRICE (Above) A delightful, fragrant hybrid Dianthus which blooms freely twice a year. Flowers literally cover the entire plant, which grows about 12 in. high and frequently 24 in. across. The 2-in. blooms have a maroon center, with the rest of the petals a lively pink; petal edges are deeply cut, for added charm. The over-all effect is very gay. Flowers come in succession on each stem, giving a blooming period of 5 to 6 weeks in springtime and again in late summer.

The pungent fragrance is heavy and is carried a long distance when the plants are in bloom. Very good for cutting. The foliage is a silvery green. The plant is decorative by itself and does not get bad looking in the garden even after years of growth. An excellent new Dianthus for every garden. (P.R.R.)

SALVIA SUPERBA, Purple Glory

(Above) A superb new perennial with royal purple color from May to fall, making a rich note in any garden. The tips of the many spikes carry deeper tones, which lighten as the flower expands. Foliage on the 30-in. plant is decorative, and itself has a pleasing fragrance. In July when the first flowering is finished, tops should be trimmed and blooming will continue until frost. New shoots spring up to replace the old. One of the best new perennials we have seen in years.

GIANT VIOLAS

VIOLA, PURPLE WALLMARK

(Above) Here is a bright violet-purple form of the famous John Wallmark Viola, which originally came from Sweden. The plant habit and growth are the same, with height at 12 in. and stems from 5 to 6 in. long. A fine addition to your garden, doing well in both sun and partial shade. Blooms from May to frost, with 25 to 30 flowers to each plant.

VIOLA, WHITE HEART

(Above, Right) Another Viola Aristocrat! A pure white form of Viola Purple Heart. The immense flowers are really a picture, and the healthy plant produces great quantities of them all through the season. They mingle well with all other Violas, so it is impossible to have too many. Although a seedling of the grand Purple Heart, the plant is somewhat more compact and sturdy. (Pl. Pat. #1508.)

VIOLA, JOHN WALLMARK

(Right) The attractive new Viola with shimmering grayish lavender over-all color laced with violet veinings and splashed with deeper violet tones at the center. It has a pert yellow and white eye. The bloom is almost 2 in. across, and the long stems make it an ideal cut flower. It grows to about 12 in. in height. Once started in spring, the bush grows rapidly and builds up to a mound of green, usually covered with bloom. This variety was discovered in Sweden, blooming, under the snow in midwinter, which gives an indication of its hardiness.

to provide trim and sturdy stalks not easily blown down by the wind . . . yet not cumbersome and stiff in bouquets. You will find that J & P Delphiniums do not need staking in most localities.

This Northern New York strain reaches these ideals and still has kept all the exquisite grace and charm of Delphiniums at their best. Plant them in threes, fives or dozens for dramatic color effects.

GAYETY (Not illustrated) A dainty color that is most pleasing—pinkish lavender with outer petals blue. Unique color display that will remind you of "lavender and old lace." Side shoots prolong the blooms for several weeks. 5 ft. tall.

FREEDOM (Above)

White, with black-and-white bees. The long-lasting spikes are set with large, double florets and bloom again in late summer if cut back after the early crop. Will "pep up" any garden, for it has real character. This variety is in great demand because it is an excellent color to accent a perennial border. Stunning in all-white bouquets or in combination with bright colors. 4½ to 5 ft. tall. Striking in groups or with other Delphinium hybrids.

DELIGHTFUL (Above)

Deep blue, the rare, real all-blue, in the darker shades so hard to get. Particularly effective because it is so good with other colors. It furnishes a glorious background for lower-growing flowers. 5 ft. tall. This is what you have in mind when you speak of dark, rich "Delphinium-blue." It is a glorious color badly needed in most perennial plantings. Be sure to cut back the plant after its first blooming period so that it will repeat later.

85c each; 3 for \$2.25;

GLORIOUS (Right)

Deep royal purple, by far the darkest and richest of all Delphiniums. This is truly a breath-taking color. The long, beautiful spikes are all out-at-once in blooming; no shattering until the last buds are fully open. Stems are wiry and strong, holding the majestic spikes on proud display. The plant repeats quickly with its colorful bloom spikes and is always perfectly hardy. A color needed for accent, no matter what other varieties are grown. 4½ ft. tall.

Huge Blooms from 4 to 5½" Across!

NEW VARIETIES FOR 1958

A REDPOLL. Deep bronze-red, 5-in. flowers have a slight touch of pure bronze on the tips of the unexpanded petals. The petals are of light texture, with a reverse of buff-yellow. 2-ft. plants bloom from Sept. 27 to frost. Dark, fine-cut foliage. (Pl. Pat. Applied for.)

B BOBOLINK. Bright gay coral-burnt-orange in the bud and sharp pastel orange to gold in the open flower. This newest quilled spoon type of garden Mum blooms from Sept. 20 to real freezing. 30-in. plant is disease free. (Pl. Pat. Applied for.)

C TEAL. Beautiful silver-pink blooms reach 4½ to 5 in. The 2-ft. plants bloom from Sept. 27 until frost; graceful light foliage. The color is buoyant and gay, whether in the house or the yard. Broad plant has strong stems. (Pl. Pat. Applied for.)

D SAGE GROUSE. A most attractive new color. When opening, it is strawberry-coral, with a golden buff reverse. The whole flower is slightly lighter when fully open. 5-in. flowers are borne on 30-in. plants. Blooms from early Oct. until heavy frost. (Prop. Rights Reserved.)

E PINK SEAGULL. An enchanting light pink form of our very popular white Seagull. 5 to 5½-in. flowers are borne on 24-in. plants. The variety is very free and blooms from early Sept. until frost. Good in all sections of the country. (Prop. Rights Reserved.)

F PAINTED BUNTING. A 5-in. flower with an intense deep red color lightened in the center with golden bronze petals. The excellent plant is medium height and foliage is clean and glossy. Blooms from early Oct. to heavy frost. (Prop. Rights Reserved.)

1 DESERT QUAIL. One of the lovely soft lavender-pinks. The 5-in. flowers are decorative, flat and widespread. The 20 to 24-in. plants bloom the end of Sept. to frost. Foliage is fine cut and clean. A lovely color, both in the garden and for use in flower arrangements. (Pl. Pat. #1555.)

2 CUCKOO. The double flower is a clear lemon-yellow and normally grows to 5½ in. across. Its multitude of petals gives it an attractively shaggy look. Plant is of medium height, clothed with rich dark foliage. Blooms Sept. 20 to frost. One of the best of the Bird Series Mums. (Pl. Pat. #1578.)

3 RUFFED GROUSE. Here is a double pastel variety of light salmon-strawberry-red. The flower is 4½ in. in diameter and begins to bloom the middle to end of Sept., reaching full bloom Oct. 12. Very hardy, with broad, firm petals. Gives a lively splash of color anywhere. (Pl. Pat. #1554.)

4 PHOEBE. Golden tangerine buds open up to very pleasant, friendly tan flowers. A lively, lovely variety during its life—4½ in., larger if disbudded. The plant has compact growth reaching 32 to 36 in. in height. Excellent for cutting. Long lasting. Blooms Sept. 15. (Pl. Pat. #1467.)

5 CHICKADEE. This lovely orchid-lavender Mum is very decorative both outdoors and indoors. The 5-in. flowers start blooming about Sept. 30. The 30-in. plant is very sturdy and resistant to insects and disease. Blooms are long lasting and keep well when cut. (Pl. Pat. #1571.)

6 ICELAND GULL. The 5½ to 6-in. flowers are breath-taking in their beauty. Center of the flower is soft light yellow, while the outer petals are shaggy and pure white. The 2½-ft. plant carries many blooms from Sept. to heavy frost. Very attractive and desirable. (Pl. Pat. #1666.)

7 ORCHARD ORIOLE. Beginning in late Sept. and from then on through early Oct., this new Mum carries masses of rich orange-bronze flowers that reach 5 in. in diameter and are produced on 30 to 36-in. stems. Popular for arrangements, with its typically autumn coloring. (Pl. Pat. #1461.)

\$2.50; 6 of a kind \$5.00

8 GOLDEN COCKATOO. Here is the most spectacular yellow garden Mum of all time! The 5 to 5½-in. flowers are a glowing Indian yellow in color. 2-ft. plants bloom from late Sept. and will brighten up your garden until frost. Dark foliage is disease resistant. (Pl. Pat. #1638.)

9 THRASHER. One of the choicest and earliest of the autumn-colored Bird Mums. Burnt-orange to brown, a real fall color. Combines well with yellow and gold varieties. The 4½-in. flowers come in great profusion on 25 to 30-in. plants. Blooms middle of Sept. to frost. (Pl. Pat. #1553.)

10 GOLDEN SWALLOW. This is a large decorative type with graceful flowers that reach as much as 5 in. across. The buds are coral in the center, and when open the petals are gold with coral on the reverse. Masses of blooms appear on the 24 to 30-in. plant. Blooms Sept. 5 on. (Pl. Pat. #1446.)

11 MARTIN. The cerise to rose-pink petals have a silvery reverse which gives great life and verve to the half-open flower. The open bloom finishes a gay silvery pink. The 5-in. flowers are delightfully fragrant. Grows 24 to 30 in. high. A fine new color in Mums. Blooms Sept. 25. (Pl. Pat. #1466.)

GILA

A BALTIMORE ORIOLE. A golden yellow flat decorative flower with incurved centers and outer petals lightly reflexed at the finish. Petals are slightly lighter on the reverse side of the 5½-in. flowers. Grows 30 in. tall. Blooms Sept. 20 to frost. A delightful, refreshing color. (Pl. Pat. #1636.)

B TOWHEE. Starts red with reverse of petals golden; 3½-in. flowers soften to a gold-tipped maroon and finish a lovely red-bronze. Grows about 2½ ft. tall, covered with large, full, pompon-shaped flowers. Blooms Sept. to frost. (Pl. Pat. #1169.)

C SEAGULL. The giant size and airy grace of this new Mum will make it an immediate favorite. 5-in. flowers. Compact cream-colored centers with pure white outer petals. Blooms early Sept. Height 24 to 30 in. This new variety is one of the largest of this new J&P strain of Mums. (Pl. Pat. #1130.)

D SWALLOW. Beautiful soft coral-pink opening into a double, buff-colored flower, reaching about 5 in. across. Lovely irregular petals have a pleasing informal effect in all stages. Blooms from early Sept. to frost and grows to 3 ft. Ideal as a cut flower. (Pl. Pat. #1106.)

E VIRGINIA RAIL. Brown is the dominant color until the flower is almost fully open, when it blends into a clear pastel tan. 4½-in. blooms are produced freely from the middle of Sept. to frost. Blends easily with any color scheme. (Pl. Pat. Applied for.)

F WOOD DUCK.

Wood Duck is a deep rose-pink backed with an intriguing creamy tan reverse. Stiff long stems and dozens of blooms on each plant. Individual flowers are easily 4½ to 5 in. across and much larger when disbudded for specimens. 2½ to 3 ft. tall. (Pl. Pat. #1310.)

G ROBIN. A new color in the hardy Bird Series. Strawberry-red when in bud and partially open and warm strawberry-bronze when open. The flowers are very double, 5 in. in diameter and almost 3 in. through, like a compound dahlia type. (Pl. Pat. #1307.)

H TITMOUSE. The color is a clear lavender-pink with the lavender dominating at the finish and the silvery grey foliage offering a lovely contrast. Flowers are full and thick, measuring 4 to 4½ in. in diameter. The plant is 24 in. tall. Blooms in early Oct. A favorite for cut-flower use. (Pl. Pat. #1630.)

lightening at edges, with the petals arranged like the crest of the cockatoo. A lovely variety with 5-in. flowers. Petals hold their form to the end. Grows 3 ft.; blooms early Sept. till frost. Prefers full sunlight. (Pl. Pat. #1171.)

J CAROLINA PARAKEET. A very gay orange-bronze Mum with golden bronze on the reverse of the petals. The 4½-in., double flowers are semi-incurred in shape. 27-in. plants start blooming the end of Sept. The abundance of blooms sometimes necessitates staking the plant. (Pl. Pat. #1657.)

K MACAW. The 4½-in. blooms are reddish burnt-orange suffused with gold in the heart of the flowers. These long-lasting blooms are rounded in form with petals full to the center. Plant grows about 2½ ft. tall, with dark green foliage. Long blooming period. Warm fall coloring. (Pl. Pat. #1609.)

\$2.50; 6 of a kind \$5.00

L TANAGER. As pretty and cheery as its namesake. 4-in., bright crimson-cherry-red flowers. Free blooming! Truly the leading red Mum. Blooms Sept. through Oct. . . . very resistant to frost. Grows 2½ ft. (Pl. Pat. #1129.)

M CANARY. Clean-cut color of the blooms makes this Mum one of the best yellows available. The perfectly symmetrical, 4½-in. flowers are beautiful rich golden yellow. Reaches 24 to 30-in. height. It's an excellent keeper when cut for indoors. Truly a very outstanding variety. Blooms Sept. and Oct. (Pl. Pat. #1113.)

I COCKA-TOO. Clean lemon to cream - white,

N CARDINAL. The largest of the early hardy red Chrysanthemums—3½ to 4-in. flowers. Half-open blooms are deep red, softening to bronze-red. Plant grows 2½ to 3 ft. Blooms Sept. to frost. This is your opportunity to get another shade of red in early Chrysanthemums. (Pl. Pat. #1165.)

O KINGBIRD. Shimmering light rose-pink with a buff-tan reverse showing particularly in the half-open bloom. 5 to 5½-in. flowers. The plant grows 3½ ft. and is equally vigorous, healthy and hardy. The foliage is a rich green and also very attractive. (Pl. Pat. #1306.)

P PHEASANT. Vibrant autumn bronze. Flower is 4½ to 5 in. Irregular petals are graceful and breath-taking. Center of warm burnt-orange softens to pinkish bronze, finally a tawny yellow on the edges. Blooms Sept. 15 to frost. 3 to 3½ ft. (Pl. Pat. #1162.)

J&P EASY-TO-GROW TREE ROSES GUARANTEED TO BLOOM!

NOW YOU CAN GET ALL THESE FAMOUS J&P VARIETIES ON TREES AT EYE LEVEL!

Tree Roses are the pinnacle of perfection. And now you can grow the "Queen of Flowers" in unequalled excellence. The blooms produced on Tree Roses are superior in quality to those grown on regular bush form. Modern Tree Roses are the crowning glory of the plant world . . . for giant size, exquisite form, brilliance of color, and abundant bloom from June through frost.

J&P Tree Roses Are Better Because: They are grown on a special strain of Multiflora root and stem. Transplant easily, handle well for winter protection. Trunks 3½ ft. tall; bushy, well-balanced heads. Trunks increase in diameter in proportion to the top. They are not subject to borers and other ills common in stems of earlier kinds.
